Highly Commended Glads

C. C. VAN VOORHIS

KINGSTON

NEW JERSEY

1958

Dear Patrons and other Glad Fanciers:

In spite of the severe drought of the past season and my inability to irrigate my main planting, I have harvested nice bulbs and made out fairly well at the shows. I won Sweepstakes at three shows and lost out by a few points at the New Jersey State Show and Eastern International because I could make only a few entries in the 1xx classes.

My 1958 Introductions as well as those of the preceeding five years have all been highly commended by one or more Gladiolus Experts. I have introduced quite a few medium (3xx) Glads because they are becoming much more popular. They are ideal for the average garden and home for they do not require the watering, fertilizing and staking that the large ones do to produce nice spikes and they are not difficult to arrange in the home. Also the medium classes still offer the easiest chances of winning Show Ribbons.

It is my general policy to introduce new varieties at moderate prices and to keep these prices for two years. My Glads are State Inspected and are guaranteed to be healthy and true to name.

As my age (72) makes it necessary to cut down on my activities, I am cutting prices somewhat in the hope that I will not have so many bulbs to plant this next season. I can afford to do this by issuing an inexpensive catalog.

EXCHANGE OFFER. I will consider offers of exchange of Ares, Bow Bells, Canahri, Cherokee, Fifth Avenue, Gondolier, Hilltopper, Jealousy, Negus, Parma Violet, Polar Cub, Seneca, Temptress, Tigertone, Vera; or other excellent newer varieties for mine.
